Mobilizing Milk Stations

Set up milk stations – with rolling coolers – for easier access during classroom meal delivery. You'll simplify the distribution process and keep milk cold throughout the serving period.

Remember, students drink more milk – and get more of the nine essential nutrients – if you serve it to them COLD! Always strive for 35 degrees for storage and delivery of milk. Download valuable tips below!

Four-crate milk coolers provide an easy way for staff to deliver milk with meals and to boost student access.

Smoothies & Parfaits for Classrooms

Yogurt smoothies & parfaits are proven crowd pleasers – and highly versatile! Serve these popular, nutritious items the easy way, with recipes and ideas below.

Set up dedicated kiosk stations for yogurt smoothies and parfaits. Or, repurpose your utility carts to distribute these items, using sheet pans to stack.

Looking for a great way to avoid spills? Use cup dividers to transport smoothies and parfaits, keeping them upright, clean and ready to go!

Hot Chocolate Milk for Students

Serving low-fat and/or fat-free flavored milk with reimbursable meals is compliant with USDA guidelines. That includes hot chocolate milk – a long-time favorite with students of all ages!

Make hot chocolate milk one part of the grab & go options on kiosks, while providing prepackaged meals to your students.

Pre-pour hot chocolate milk cups for easy student retrieval. Use a program-branded dispenser to help market this item throughout the school day.
