

Strive for 35° *Tips for* Cold Milk!

Follow these steps to keep MILK COLD:

- 🌡️ Monitor milk temperatures daily
- 🌡️ Check temperature at delivery and move to cooler immediately
- 🌡️ Place milk away from walk-in cooler doors
- 🌡️ Allow for air circulation in cooler; do not overload
- 🌡️ Close cooler doors
- 🌡️ Clean cooler vents regularly
- 🌡️ Replace worn gaskets
- 🌡️ Keep milk on ice during meal delivery and Grab & Go distribution
- 🌡️ Consider freezing milk before remote distribution
- 🌡️ Use and reuse “fake ice” blankets or cubes
- 🌡️ Use insulated barrels to transport crates of cold milk

Milk tastes best
when it's served cold,
between 35°
and 40°F!
